Profile

Graphic designer and full-stack web developer, with a unique set of skills to work on a project from start to finish. I am knowledgeable of many industry technologies including the adobe creative suite plus tools for both front-end and back-end of websites.

Skills

Adobe Creative Suite - Illustrator, Photoshop, InDesign, Premiere Pro, and After Effects.

Web Languages - HTML, CSS, and Javascript.

Web Tools - Git, Node.js, Bootstrap, express Handlebars, and Mysql.

Experience working in fast-paced environments.

Leadership and co-operation skills.

Time management and organizational skills.

Dairy Associate, Walmart, Midland, Ontario

Dec 17 2020 to Present

I worked in the dairy department the job mostly entailed moving food onto the shelves from the back and checking to make sure there are no expired foods on the shelves. I had to organize the product and keep the fridge in the back clean and organized.

Remote Graphic Design Intern, Gao Tek; Pickering, Ontario June 22 2020

to Sept 18 2020

At this internship, I mostly worked on editing images for use in web and print. Occasionally I needed to create a layout of text on the images. The company hired a lot of interns so I didn't get to do much more.

Graphic Designer Intern, The Oshawa Express; Oshawa, Ontario

January 26 2020 - March 14 2020

At this intership, I worked on advertisements and edited images for the website. I worked on a new project that would help sell advertising space. I would occasionally help with office duties like answering the phone and help organize files.

Education

Web Development bootcamp at Carleton University 2021

Graphic design at Durham college 2017 - 2020

High school diploma at Midland secondary school 2012 - 2016
